

# DSC Neo Quick Reference

The PowerSeries Neo Alarm System uses shortcut keys to access options or features on all models of keypads. When using an LCD keypad, the PowerSeries Neo Alarm System additionally uses a menu based navigation system. The scroll keys can be used to [Scroll] through the list of options contained within the current menu.

Status Lights		Function Keys		Emergency Keys	
	<b>Ready</b> - Indicates system normal. Must be on to arm system. All zones must be secured or bypassed and the system disarmed for this light to activate.		Stay Arm		Fire Alarm
	<b>Armed</b> - Indicates system is armed. If the Ready light and the Armed light are both on it indicates an Exit Delay is in progress.		Away Arm		Medical Alarm
	<b>Trouble</b> - On indicates a system malfunction or tamper. Flashing indicates that the keypad has a low battery condition. Follow the instructions displayed or enter [*][2] to view trouble. Correcting the trouble turns off the indicator.		Chime		Panic Alarm
			Reset Sensors		
	<b>AC Power</b> - Indicates AC Power is present. The AC Power light will turn off when AC is absent.
